Chief Adviser, Factory Air Raid Precautions,
Copy of a letter from the Government of India, Department of Labour, No.ARPII-15, dated the 28th November 1942.

----:0:----

I am directed to refer to Political Department Memorandum No.D-1579-W/41 dated the 6th September 1941 in which States were asked to delegate authority to the Chief Inspector of Explosives in India to enable him to serve Orders on State Factories under Rule 51C of the Defence of India Rules. I am to point out that only the Factories which are classified as vital to the war effort have so far been visited by Inspectors of this Department. It is possible that there are other Factories which are considered important but which are unclassified and instances in which the States have no suitable person to organise and advise on A.R.P.

If the States which which you are concerned have any outstanding problems, a reference should be made to this Department. Plans of A.R.P. structures may be submitted for criticism and in the case of factories which are considered of sufficient importance to merit a visit we would be glad to send an Inspector to work out an A.R.P.Scheme. The attention of the States may be invited to the third edition of 'A Summary of A.R.P. Applied to Factories' which has recently been published and contains advice on organisation and protection, lists of equipment and Type Plans of different A.R.P. buildings.

The following items of equipment can be obtained through this Department for use in factories: -

Trailer Pumps,	Water bottles,
Fire Hose,	Eye Shields.
Stirrup Pumps	Gum boots,
Steel Helmets,	Glass substitute imported from United Kingdom.

I am to ask, if you see no objection, that the States who have delegated authority to the Labour Department* may be addressed in the above terms and that this Department be informed in due course of any assistance which may be required.

*C.I.E.
